WASHINGTON CITY:

MONDAY AFTERNOON...... November 13 A. B. Owens, No. 70 High st., Portsmouth, Va., will furnish subscribers to the Evening Star with their papers regularly every morning after its issue.

JEREMIAH KIDWELL, Esq., is appointed our agent for collecting subscriptions to the Daily Evening Star and Weekly Star, in the State of Virginia. We commend him to the kind attention of our friends.

W. M. MILLS, at Fredericksburg, Va., is prepared to furnish subscribers to the Star with their papers early every morning. Persons wanting the paper will be promptly attended to by leaving their names and addresses with him.

SPIRIT OF THE MORNING PRESS. The Intelligencer has accounts from Albany, which elect Clark rather than Seymour, Governor of New York by a plurality of 100 votes. The editor doubts their correctness, however.

The Union argues that the recent elections do not prove the unpopularity of the Administration, showing that the Know Nothing element in the contest had no reference to the measures or principles of the Administration and that its assistance alone enabled the opposition to triumph. Again, the editor denies that the Attorney General had any thing whatever to do with the Central American Land and Mining Company, and rates the New York Tribune severely for repeating that idle story.

The Santunel discusses the news from California, the forgeries of Meigs, the battle between the Russians and the allies, and the loss of the Yankee Blade. By the by, does not this aggregation of startling events on that coast show that the Pacific side is fast becoming something of a place?

OPENING OF THE CENTRAL OHIO RAILROAD. We have received a circular from the directors of the Ohio and Indiana Railroad, inviting us to attend an excursion to Fort Wayne, Ind., on Wednesday, the 14th inst, on the occasion of the completion of the road. It is 131 miles in length, connecting Baltimore with the West. This railroad is now open from Crestline, Ohio, to Lima-72 miles. It will be opened on the 15th to Fort Wayne-131 miles -there to connect with the Indiana and Chi-

Leonard Scott & Co.'s cheap and admirable clear that but for the Know Nothing element republication of the October (1854) number of the Edinburgh Review, always so gladly welcomed on our book table. Leonard Scott & Co., are benefactors of their country, if but in their conception of the idea of furnishing the American reading public with the standard English monthlies and quarterlies, so necessary to enable one to "keep the run" of the literature of the day, at a very cheap rate. We should be lost, as it were, without them.

The New York Election.

The New York Herald of yesterday, of the late election, says: Our own table, carefully corrected and foot ed up, shows the following result: Seymour..... 122,518 Clark..... 123,146 Uilman..... 108 950 Bronson..... 24,090 Clark over Seymour..... Seymour over Ullman..... 13,568 The Albany Journal of Saturday evening gives the result as follows : Seymour..... 119 582

The election for Congressmen, Governor an i members of the Legislature comes of today in Massachusetts. During the past two weeks the different candidates for office underwent process of having their characters dis sected. Personal vituperation of candidates and defamation of character are common in the political journals of staid Boston during this canvas. If this thing is continued it will soon be impossible to get any decent man to consent to be a candidate for office. In these degenerate days if an angel were a candidate for office, his opponents would paint him black and then cry out 'There goes the devil."

NEW JERSEY LEGISLATURE. - The position of parties in the next Legislature, according culty was occasioned entirely by the rashness to the Trenton Daily True American, will stand as follows: In the Senate there are ten thoroughly informed as to the facts, and, there-Democrats, eight Whigs and two Native fore, take the liberty of extracting from a Americans. In the House, twenty-three private letter just received : Democrats, two Temperance Democrats, four Independent Democrats, making twenty-nine of that politics. There are five Native midst of the Indian village with his men and Americans, one Independent Anti-Nebraska Whig and twenty five Whigs, making thirty chief of the Buileas, amongst whom the offendof those three distinct sets.

POST OFFICE EMBEZZLEMENT AP NEW OR-LEANS .- The New Orleans Crescent of the 6th

A young man named Richard A, Laponta, who has for a long time been employed in the mailing department of the city post office, was, on Saturday morning, arrested on a charge of taking money (gold coin) from a valuable letter-amount not known. He is now in oustody of the United States Marshal, and is held for examination before a Commissioner.

WASHINGTON NEWS AND GOSSIP. News from Illinois.-We have seen a private dispatch from Chicago, this morning, as follows:

CHICAGO, 8 A. N., Nov. 13 .- The returns rem Illinois lock well. Richardson, Allen Harris, and Marshall, all true Nebraska Democrats, are elected by decided majorities. The Senate will be Democratic. The House doubtful. General Shields will be his own sucsessor in the United States Senate.

This purports to come from a source in which we have perfect confidence. Unless the signature is forged to it, it must convey the truth.

Interesting from Washington Territory .-An attentive subscriber at Fort Townsend, Washington Territory, writes us, under date October 6, as follows:

"The United States revenue cutter Jefferson Davis, Capt. Pease, has arrived here, and all in good time. The citizens are rejoiced to see the cutter, and well they may be, as such villainous and treacherous looking Indians as are around here were never seen elsewhere They are troublesome now, and as many as one thousand of them are expected here soon to demand money first, and then blocd, for the death of two Indians killed by the whitesome time since. The white Indians are the worst. The court is now in session, trying four Indians for murder, and two, certain, will be hung. Then white folks, look out.

"It is very fortunate that the cutter is all fitted out and ready for war. Those grape and canister shot are the things. They are For the redemption of stock.....\$107 210 25

"The second night here, the commander of the cutter took a 'Sydney bird,' (Englishman,) for stealing from on board an American bark during the night, and cutting the rigging. He was put in double irons, as it was Sunday and as there is no jail here or even in the Territory. About three o'clock, a. m., six shots (rifle) were fired, and one ball went just clear of the heads of the men on board the cutter Capt. Pease informed the owner of the shanty on shore, from whence the shots came, that i any more were fired from that direction over his vessel, he would instantly sweep the shore with grape and cannister shot from six twelvepounders; and if he (the Captain) found that he sold or gave any more liquor to Indians, he would knock his house down, (you know the penalty is very severe,) and put him in double rons. Since then all is still. Oh, these white Indians! Among the copper ones are Generals Taylor, Pierce, and Scott, Lord Jim, His Grace the Duke of York, &c., &c. It is lively times you may depeni.

"The cutter will have to go to San Francisco for provisions and men, in December, as there is no other alternative. There is not one pound of bread, sugar, beef, &c , in this town, and not much at Olympia. It is an awful country, and there is no place where a revenue cutter is more needed at present."

A very Unanimous Community.—We have yet to find the first citizen of Washington of either or any political party, (except, perhaps, purpose of arranging for the copyright or furthe forty or fifty who are avowed Abolition. nishing early sheets of the work. ists) who does not express gratification at Sey-We are indebted to Taylor & Maury for mour's probable triumph over Clark. It being in the contest, Clark would have triumphed (as, otherwise, a large wing of the Silver Greys would have voted for C., as well as the large wing of the Hards who voted for Ullman to defeat Seymour.) Some of the Democrate are beginning to believe that Know Nothingism, after all, is not the terrible thing they took it for. So folks go at times, in political affairs. However the new element may have 'punished" the Democrats in Pennsylvania, Maine, Ohio, Michigan, Wisconsin and Illinois, it has punished Abolitionism, Maine Lawism, Bloomerism, &c. shockingly in New York, and bids fair to punish the Whig party proper as awfully, to-day, in Massachusets. There, it has in most cases adopted persons of ultra free soil tendencies for its Congressional candidates, though its candidate for Governor was, up to his nomination, a Silver Grey Whig. Subsequently, however, he has come out against the Fugitive Slave law and for the restoration of the Missouri Compromise. Having done so, we think it highly probable that a very large wing of the Whig party of the State, not Know Nothings, will abandon Governor Washburn and vote for Gardiner, in order to keep out Judge Charles Allen of Worcester, the Free Soil nominee, as pestiferous an Abolitionist as ever squeaked his hour on the floor of the House of Representatives.

The Massacre of Lieut. Grattan and his Command.—It will be remembered that up to this time, though the sad occurrence took place near Fort Laramie some months ago, no reliable information concerning its details has been spread before the American public. This has been occasioned by the fact that the whole party were destroyed. The War Department, however, very recently received dispatches from Lieut. Col. Steptoe, 2d artillery, who commands at Fort Laramie, wherein all the facts are set forth, which entirely exonerate the memory of Lieut. Grattan from the imputation of rashness, which has very generally been charged on him in the absence of satisfactory information concerning the

We extract from the dispatches in question, s follows

"Hearing it whispered about that the diffiof Lieut. Grattan, I think it due to the memory of that young officer that you should be "The best authenticated account seems to be

that Mr. Grattan, expecting to get the Indian murderer without any trouble, went into the pieces. He could not well have avoided this, as the lodges covered a space of three miles. The two guns and plenty of arrews, and would fight. About the time that Grattan regained his command, this Indian fired; G. then ordered his musketry to fire. The Indians who had gathered about him to the number of fifteen hundred, perhaps, fell flat on their faces, and the balls passed over them, as did also the whole charge of the pieces which were fired immediately afterwards. The whole party was then destroyed before either the cannon or the muskets could be reloaded. They were all killed with knives and arrows. Lieut G. had dismounted, and given his horse to one of the men, while he worked as gunner, and was found, where he fell, by the side of his piece."

This statement shows that Lieut. Grattan did not take the initiative, and it goes to confirm the opinion that the attack upon the

troops was part of a deliberate plan. Liability of the Government under Charter Party and Bill of Lading .- A Quartermaster of the Army, acting for the Government, entered into a Charter party with the owners of a ship at Boston, for the transportation of certain army stores to San Diego, Cal.; the United States to pay a specified freight and primage accustomed. The Bill of Lading, dated three weeks subsequently, contained a clause not found in the Charter party, that the goods were to be delivered at the Government wharf in San Diego, if there was sufficient water for the ship to lie safely at the same. There happened to be no Government wharf there, and the owners presented a claim for wharfage.

It was held that if the condition in the Bill

been inserted for the benefit and convenience of the Government and not of the owners) had been included in the Charter Party, there might have been some question in regard to the liability of the United States for wharfage, on the ground that a construction must be put upon such agreements, not inconsistent with their terms, and affecting the probable understanding and expectation of both parties when their contract was made. But a Bill of Lading cannot be allowed to contravene or alter its defence. The allies had silenced some of the terms of a sealed Charter party. It is, in such a case, only the evidence that the particular stores or merchandise to be conveyed in pursuance of the contract already made had been shipped as stipulated; and the United States having fulfilled on their part the conditions of the Charter party by the payment of the agreed freight and customary primage, are clearly not liable to the owners for anything

Graham's Sentence.

Judge Mitchell, of New York, in sentencing Dr. Graham, who was found guilty of manslaughter at the close of his trial for the murder of Mr. Loring, in briefly summing up the evidence in the case, closed thus:

"You first insulted Major Loring and his wife at his door. You next met him at the stairway, you armed and he unarmed; he remonstrated with you on your previous misconduct, perhaps as angrily as he had done before. You again insulted him and his wife, and called him a liar-he returned these insults with a blow from his naked hand, and you, the original aggressor, drew your sword. stepped back and closed on him, killed him on the spot. It is proper, therefore, that the extreme punishment applicable to the offence of which you are convicted be inflicted; and your sentence accordingly is, that you be imprisoned in the State prison for seven years."

IT SHOULD be universally known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhosa, cholera morbus liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspepties; think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, cura-tive, and invigorant, stands alone and unapproached. We have tried the Bitters; and know that they are excellent for the diseases specified above.
